Las Piñas, Philippines | consignadofranz@gmail.com | 09766566775 | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Information Technology graduate with a Controls Assurance internship at Deloitte Philippines and hands-on cybersecurity training, including phishing analysis labs. Experienced in IT controls review, user access review, data privacy checks, and evidence validation against COBIT 2019 and BSP guidelines, which gives me a risk-aware view of security work. Building practical skills in log analysis, SIEM, and threat detection, and looking to start a career as an entry-level cybersecurity or SOC analyst.

## PROFESSIONAL EXPERIENCE

**Controls Assurance Intern, Deloitte Philippines** — Taguig | Mar 2026 to Jun 2026

- Analyzed client evidence items for completeness, accuracy, and consistency, flagging discrepancies and documenting observations for senior review.
- Supported control validation against COBIT 2019 and applicable BSP guidelines, documenting potential gaps and risks for engagement reporting.
- Performed user access reviews by comparing access lists to current employee records, confirming access was limited to authorized, active personnel.
- Assessed business process information for Personally Identifiable Information (PII), checking necessity, handling, and protection against data privacy requirements.
- Built and maintained Excel trackers to organize findings, monitor engagement progress, and keep records ready for review.

## EDUCATION

**STI College Las Piñas, Las Piñas City** | 2022 to Jul 2026

Bachelor of Science in Information Technology

## CYBERSECURITY TRAINING & LABS

- **TryHackMe: Introduction to Phishing** — studied how phishing attacks work and how to recognize and analyze them.

- **TryHackMe: Phishing Unfolding** — worked through a phishing scenario, investigating the evidence of an attack.

## TECHNICAL PROFICIENCIES

**Cyber Security:** Access Control, Risk Management, Data Privacy, Incident Response Concepts, BCP/DRP Concepts, Network Security Fundamentals (TCP/IP, Firewalls, IDS/IPS), Phishing Analysis

**IT Audit & Compliance:** User Access Review, Evidence Review, Control Gap Identification, Audit Documentation

**Frameworks:** ISACA COBIT 2019, BSP Guidelines, exposure to ISO 27001 and PCI DSS

**Development:** JavaScript, Node.js, Express.js, MongoDB, SQL, Java, HTML/CSS, Python, C#

**Tools:** Microsoft Excel, Git, Postman, Visual Studio Code

## CERTIFICATIONS

**Introduction to Cybersecurity**, Cisco Networking Academy | Oct 2026
